Testimonials and why clients like to work with us

"For the past few years, the World Green Infrastructure Network (WGIN) has collaborated with Business Solutions Europa. Luigi Petito deserves recognition for his efforts to bring attention to our profession and the importance of green infrastructure within European policy circles. He and his team have acquired a deep understanding of how green roofs and green façades can address the challenges of the built environment and translated this knowledge into shaping environmental directives. This is not only a significant win for us but also for the urban environment. We look forward to continuing our successful partnership for years to come".
